### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Applicant has canceled the composition claims and amended the dependent claims to depend from method claim 20. Claim 20 sets forth a method of detecting substantially full cure of an adhesive wherein a (meth)acrylate component containing composition comprising a dye that changes color upon curing of the composition. The dye is a xanthene dye selected from the Markush group set forth in claim 20. The closest prior art of record, to Neckers et al '171, discloses a method for monitoring the cure of a cationically polymerized coating but does not teach using a xanthene dye selected from the Markush group set forth in the instant claims. Trom et al '725 do not teach or suggest a method of detecting cure of an adhesive on a surface of a first article that is contacted with the surface of a second article and exposed to cure conditions. Trom et al disclose dental compositions comprising xanthene dyes that change color upon curing and their use as sealants on the surface of a tooth.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Susan W Berman whose telephone number is 571 272 1067. The examiner can normally be reached on M-F 9:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James Seidleck can be reached on 571 272 1078. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
